Harry Greenfield, who has resigned his position with the GCW to take up work with the cinema, may get some soap and get the printer's ink off his skin, and have a manicurist get it from under his finger nails, but what physician under high heaven has a prescription to get it out of his blood.

Brother Cottingham's (Vollies) brother who served continuously 30 years with the Rock Island, except for the period when he was in the World War, is visiting his brother, Mr. Vollies. This veteran railroader is from Memphis.

With strikes in progress, and others pending with race riots and walk-outs halting war production, it is high time that every able bodied man be drafted either for the war effort or for efforts on the home front.

The negro and the white man have always got along in this community, and will continue to get along if some of these northern folks who know nothing about the problems that both races have patiently wrestled with for generations will not meddle too much. It is pathetic that northern persons, who have been in this country only a few days, have all the answers to a question that has perplexed the people right on the ground ever since the Civil War. The question is too complex for anyone, except God Almighty, to solve off hand.

If any trouble should develop here—which God forbid—it will be the fault of some addlepated, do-nothing who is spending his first time below the Mason-Dixon line, and not of any local person, either white or negro.

The North wants the negro only during periods like the present one, when labor is extremely scarce. The worst race riots in history have occurred in the North, not in the South. Look at the row now barely abated, and only smoldering in Detroit. Who never heard of a race riot worthy of the name, in the South?

The good negro of the South has always respected the white man's rights, and, in turn, sees his own rights respected. The good white man of the South has his place which is respected by the good negro, and is the first one to jump to the relief of the good negro whose rights are in jeopardy.

Some northern people seem to think that the negro is still in slavery, is treated unjustly on every hand, and that it is their duty to intervene. No intervention is necessary. All that is needed is to let alone.

No race on earth, just freed from slavery, ever made the progress that the negro race has in the South since the Civil War.

If YOU do not know anything about the negro problem, my friend, keep your trap shut. Unless you have lived in the South all of your life, the chances are that you know nothing.

I am never going to let another dentist pull a tooth of mine, nor is Suzy Crenshaw and W. T. Costlow.

It looks to me that the least thing the City of Grenada could do would be to make and distribute some benches for the soldiers to sit on. It makes anyone heart sick to see thousands of them wandering idly back and forth with nothing to do, nothing to sit on, and even cool water mighty scarce.

Cpl. Lorraine Morgan, who has been in service for three years and seven months passed through Grenada last week and stopped for a night's visit with his aunt, Mrs. D. H. Horn and family. He will return for service at Camp Gordon, Ga.

Me and Mike.

## U. S. O. TALK

(By Mrs. W. W. W.)

Mr. W. J. Shackleford, Field Recreation Representative of Jackson, Miss., visited our office on Monday of this week. He assures us that in the near future work will begin on the Stokes property now occupied by Moss Bros. Motor Co. and which has been purchased by the Federal Government for \$15,000 (fifteen thousand dollars) and to be used as U. S. O. Recreation Center for white soldiers. The negro property owned by the city and the adjoining lots to the Negro School property on the east, purchased from Ed Brooks by the city now awaits the legal clearance as to title. Clearing these titles is holding up the expenditure of a \$70,000 allotment made for the City of Grenada to house soldiers recreation. This allotment was made in January of 1943.

Mr. Shackleford assures us that the approved plans and specifications for

Lt. COL. JOHN C. BENNETT, JR.

## Overseas Vet. Is Interested In The Two Fire Business

The following letter was received by Marvin Bryan from Pvt. Lewis Martin, now overseas, probably in North Africa, and the writer is interested in this "two fires at the same time" business, as his letter discloses:

"Hello Marvin,

"I am sorry I haven't written you sooner. I am well and getting along fine. Hope you are the same. Have been making it rather easy over here. It has been very exciting and interesting. I am in a good outfit with all my friends that was with me back in the states. Robert Murphy is still with me. I met Billy Hayward over here about 6 weeks ago. He was O. K.

"I read in the GCW about the argument you and the boys had about who was to be saved first the rich or the poor By the way who won?

"Mus' close will write again soon Tell Dutch, Shag and the rest of the fellows I said hello."

## Church Service Announcement

Rev. C. S. Ides asked us to announce that there will be no celebration of Holy Communion at 7:30 on Sunday, June 27, at All Saints Episcopal Church.

Captain Graham, Episcopal Chaplain at Camp McCain will conduct the regular service at 11 o'clock Sunday Mr. Ides left Wednesday for Mayo's Clinic.

## Spring Hill Cemetery Cleaning

Anouncement is made that the annual cleaning-off of the Spring Hill cemetery will be held on Friday, July 2nd.

All interested persons are invited to come with tools and baskets of food.

Judge Emmett Powell, former Chamber Clerk, now working in a hotel in Montezuma, Alabama, has been added to the list by virtue of a gift from Morrison Thomas. Morrison said he was as windy as ever. He has been away from Grenada for 23 long years.

Cpl. Lorraine Morgan, who has been in service for three years and seven months passed through Grenada last week and stopped for a night's visit with his aunt, Mrs. D. H. Horn and family. He will return for service at Camp Gordon, Ga.

Me and Mike.

## Legion Of Merit Is Awarded To J. H. Riley

By direction of the President, Legion of Merit, in the Degree of Legionnaire was awarded May 24, 1943, to Lt. General Millard F. Harmon, commanding the United States Army Forces in the South Pacific Area, to James H. Riley, of Duck Hill, private, Field Artillery, United States Army for exceptionally meritorious conduct in the performance of service of a considerable degree of merit on January 13, and 14, 1943, at Guadalcanal. While he was with an artillery observation post, accompanying a Marine battalion which advanced deep into the enemy territory, the line of communications was cut when the enemy effectively placed snipers in their rear. Although physically fatigued, hungry and rain-smeared, Private Riley voluntarily occupied a defensive position in the Marine lines throughout the night. The next morning, although harassed by snipers, he successfully made his way back through enemy lines to the rear area. Then, acting as guide, he led back to the Marine battalion retreating observing party, laying wire.

## Grenada To Get A Lot Of Housing—Big Question Mark

According to an AP dispatch from Washington the National Housing Agency has approved an immense program of housing for various parts of the nation, including a number of building and improvements in the Grenada area.

The program calls for 340 new family units, 60 dormitory units and 10 apartments through remodeling for Grenada.

Fine, if true! But, from bitter experience, Grenada has learned that many a slip betwix cup and lip.

## Mrs. Anna Morgan Honored

A very charmingly alfresco party planned in honor of Mrs. Anna Morgan, matron at Grenada Hospital who is retiring on July 1st after 12 years of splendid service, was staged in the beautiful garden at the home of Dr. and Mrs. J. K. Avent on Friday evening, June 18th, at 7:30 and lasting to 10 o'clock. A group of close friends, associates in the hospital, and relatives of this estimable lady were graciously received by Dr. and Mrs. Avent and their daughter, Miss Louise, and by the honoree.

A delicious buffet supper was served to the following guests: Mrs. Morgan, Mrs. Earl Ford, Miss Wilbourn, Mrs. Fisher, Mrs. Parks, Mrs. Gerig, Misses Bonnion Collins, McGinnis, McKeithen, Ursy Whatley, Ward, and Mesdames Thelma Harris, McKeever, Sheldon, Gladys Honeycutt. The following colored people were present to assist with the service and then had their supper: Willie and Betty Lee Willis Ruby Smith, and Nurse, the faithful cook for the Avent family.

Horn finished revising our mailing list Monday, and we added 56 new names to our list which represents the crop for either four or five weeks. Thanks to the continued confidence and helpfulness of our subscribers, the GCW has enjoyed a healthy steady growth ever since we started it. It's a little shack called the China Den. In the meantime, we have never given a prize, nor have we had any sort of campaign. Nearly one hundred percent of our subscribers are "walk ins", that is they voluntarily came in and without solicitation, subscribed.

Since revising the list J. L. Jones of Leflore came in to get a six month prescription filled. Leflore is in Grenada county, but Greenwood is "town to town".

It is as hot as seven hells held over a red hot stove, but there is nothing to do about it.

The cork is going to have to get a trailer properly to attend to prospective business in Grenada.

The sun passed the crest on its annual journey Tuesday. Hope the weather cools a little for it is as hot as seven hells.

It looks as if the Ferdinand Club has disbanded for the Summer.

## Recreation Program Proves Successful

The first week of Grenada's Recreation Program had proven very successful. Boys and girls between the ages of 6 and 20 inclusive have been given planned activities five days a week. Each morning from 9 to 11:30 is given to the 6 through 9 year group, while each afternoon from 2 to 4:30 belongs to the boys and girls from 10 through 12. The Primary School Building is the center for both under-teen groups.

Each Tuesday and Friday night the High School Gymnasium is opened to the teen age group for dancing, ping pong, and various other activities.

Each night is thoroughly enjoyed and appreciated by the boys and girls, and each night the group is growing.

Grenada is to be complimented on its cooperation with this program. Mothers, send your children for a period of wholesome fun! Boys and girls, come and see for yourself how much fun you can have!

## All Candidates Are Invited

In order to conserve the time of the candidates and the time of the voter, all candidates are invited to the following places on the following dates:

Holcomb, July 6  
Grenada, July 10  
Hardy, July 13  
Mt. Nebo, July 20  
Gore Springs, July 27  
Grenada, July 31  
Time: 3 o'clock p.m., except Holcomb, which will be 4 o'clock.

## Revival At Zion Grove Church Of God

The revival at Zion Grove Church of God began June 20th and the close will be announced later. The present preachers are sister Irene Whitten and brother H. M. Parker. There will be others later. We heartily welcome everyone of every faith to come and worship with us and try to win souls for God.—Contributed.

**IMPROVED  
UNIFORM INTERNATIONAL  
SUNDAY SCHOOL Lesson**

By HAROLD L. LUNDQUIST, P. D.  
(Released by Moody Bible Institute of Chicago,  
Western Newspaper Union.)

**Lesson for June 27**

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

**JOHN'S COUNSEL TO CHRISTIANS**

LESSON TEXT—II John 4:11; III John 2:12.

GOLDEN TEXT—Beloved, I pray that in all things thou mayest prosper and be in health; even as thy soul prospereth.—III John 2.

Christians need guidance, especially in their home and church relationships. The apostle John, under the inspiration of the Holy Spirit, wrote the two personal letters known to us as II and III John. They abound in sound spiritual, practical advice. Note that these two words belong together, for what is truly spiritual cannot help but be tremendously practical and perfect for the direction of thought and life.

In these letters five admirable lessons are taught. Let us give heed to them. They are appropriate to our day.

**I. Set an Example Before Your Children (II John 4:6).**

We may not like to admit it, but our children are largely what we make them by their training—or lack of it—in the home. Parents have the grave and at the same time precious responsibility of being what they want their children to be. We set the mold of their thinking and acting, not only about material things, but mentally and spiritually, which is far more important.

Above all we must teach them by precept and example to love God supremely, and to walk after His commandments. Father, mother, have you done your duty? Are your children "walking in truth"? (v. 4)?

**II. Be on Guard Against False Teachers (II John 7:11).**

We are not to countenance false teaching even by entertaining such teachers, or having close fellowship with them. To create the impression before the world and the Church that they are "not so bad," by appearing as their friends, is to partake of their evil works (v. 11). This is a serious matter, and one which is a problem in the Church today.

Such teachers may easily be recognized. They are aptly described by Dr. Douglass: "In all ages the Church has been plagued by those who want to substitute something for pure Christian faith, or to embroider it with bright ideas of their own conceiving. Such people may try to strip religion of its supernatural aspect and reduce it to a merely rationalistic system. They may seek to slowly loosen the moral standards of the Church because their own lives are deficient when measured by such standards. They may try to minimize the teaching of the cross—because it stands for sacrifice." Watch against them, and stand against their destructive teaching.

**III. Be Diligent in Putting Forward True Teachers (III John 5:8).**

The door which should be closed against false teachers should be opened wide to those who are faithful teachers of the truth.

This refers primarily to the hospitality of the home, and reminds us of a grace which has been all but forgotten in these days of small apartments.

Whether we are able to open our homes to God's servants or not, we can show a Christian spirit of genuine hospitality in helping to bring them forward (v. 6) in their work. This may be done by gifts of money, by kindness shown in time of need, by a real interest in their work, by recommending them to others who wish to hear the truth.

Do everything possible, then, to hinder the false teacher, and be just as diligent to put forward the ministry of the true man of God.

**IV. Do Not Trust Froun, Self-Seeking Leadership (III John 9:11).**

A man may be orthodox, and intensely loyal to the denomination, and at the same time be a wicked man whose example is to be shunned. No word is said against the teaching of Diotrephes. He was not condemned for being careless about the affairs of the church, or unfaithful in his attendance and devotion to its interest as he saw them.

The sin of Diotrephes was pride, a desire to be the boss of the church, "No, I man" in its affairs. Lacking the true spirituality which always results in humility, he opposed the apostle. Not only did he refuse to receive him, but used pressure on others who were willing to be hospitable.

**V. Emulate the Life of the Men of Good Report (III John 12).**

A good man! No words of praise could possibly surpass such a testimony. The world is full of brilliant, skilled, wealthy and prominent people, but there is an appalling dearth of good men and women.

How refreshing to meet, and how delightful to know, such a man—such a woman. Like Demetrius, they have not only the witness of the Church, and of the truth, but also of "all men." But last week we said the world hates real Christians. It does, but it also respects them, and is forced to bear witness to their reality and goodness.

Professed fellowship with God in Christ which does not result in goodness of life may well be scrutinized.

**PATTERNS  
SEWING CIRCLE**

1741

**Favorite Apron**  
APRONS are certainly turning out to be fashion's pet these days and this one, with patchwork border, is one of the favorite models.

Barbara Bell Pattern No. 1741-B designed for sizes 14, 15, 16, 18, 20, 22, 24 and 26. Size 16 (34) requires 2½ yards 30-inch material; 7 yards bias fold. Use scraps for bottom.

Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

Send your order to:

**SEWING CIRCLE PATTERN DEPT.**  
336 South Wells St., Chicago.  
Enclose 20 cents in coins for each pattern desired.  
Pattern No. .... Size. ....  
Name ..... Address .....

**Bright Colors**

THE brighter the better . . . a two-piece that lends itself to brilliant contrasting colors. Flattering top, young skirt.

Barbara Bell Pattern No. 1724-B designed for sizes 12, 14, 16, 18 and 20. Corresponding bust measurements 30, 32, 34, 36 and 38. Size 14 (32) bodice requires, with short sleeves, 1½ yards 30-inch material; skirt 2½ yards; 6 yards ribbon trimming.

**Load of Heavy Bombers**

Heavy bombers of the latest U. S. type weigh about 40,000 pounds and are capable of carrying 4,000 to 8,000 pounds of bombs for an estimated distance of 3,000 miles. They carry 11,000 gallons of gasoline—or 3,000 gallons more than the ordinary railroad gasoline tank.

**SNAPPY FACTS  
ABOUT  
RUBBER**

From 1907 to 1912, synthetic rubber from Mexico represented about 7 per cent of the world's rubber supply. In 1941, it was less than 1 per cent.

More than 84,000,000 motor vehicles have been produced in the United States since 1900, with an average of five tires per vehicle. That gives you an idea of the number of tires that have been made to maintain motor transportation.

A Spanish Mission book in 1519 described a belt made of the gum of a tree that grows in "hot countries." He was referring to what we now call rubber.

*jersey sheet*

**Household  
Hints**

So that they will not appear spotted, iron shantungs and pongees dry.

Several strands of wire placed from end to end lengthwise over the poultry feed trough will prevent chickens from getting into the trough with their feet and wasting and contaminating the feed.

A cushion or pad underneath a rug not only makes it feel softer and warmer but will also make the rug last longer.

Gum frames can be cleaned by dipping a soft cloth in milk and rubbing gently over the soiled spots. Repeat several times if necessary.

Baked ham is glorified by pouring honey over the ham before browning. It gives a delicate brown color and a delicious flavor.

Start root vegetables in boiling, salted water, about one teaspoon of salt to a quart of water.

No job is so important that you cannot take time to do it safely.

When drying a sweater or sweat shirt, use a wire coat hanger and bend the ends almost together while putting the garment on the hanger or removing it. This prevents stretching the neck of the garment.

When you hear a Marine called a "Leatherneck," it has nothing to do with the epidermis of his neck. Years ago the Marine uniform was equipped with a high stiff leather collar. From that time on, "Leatherneck" has been the word for a Marine. The word for his favorite cigarette is "Camel"—the favorite cigarette also of men in the Army, Navy, and Coast Guard. (Based on actual sales records from service men's stores.) And though there are Post Office restrictions on packages to overseas Army men, you can still send Camels to soldiers in the U. S., and to men in the Navy, Marines, and Coast Guard wherever they are.—Adv.

Pattern 2884 contains a transfer pattern of six motifs averaging 5½ by 7 inches; illustrations of stitches; color schemes; materials required.

Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

IN THE DISTRICT COURT OF THE UNITED STATES FOR THE NORTHERN DISTRICT OF MISSISSIPPI, WESTERN DIVISION  
UNITED STATES OF AMERICA,  
Petitioner,  
vs.

NUMBER 188 CIVIL  
CERTAIN PARCELS OF LAND in the County of Grenada, State of Mississippi, and Louise Alston Jordan, et al., Defendants.

THE PRESIDENT OF THE UNITED STATES OF AMERICA, TO:

The following named defendants, non-residents of the State of Mississippi, whose post office addresses are as hereinafter set forth, to-wit:

The Federal Land Bank of New Orleans, New Orleans, Louisiana;

The Land Bank Commissioner, New Orleans, Louisiana;

The unknown Bondholders of the various road districts, school districts and county wide bonds of Grenada County, Mississippi;

And all other persons, firms and corporations whose names and post office addresses are to petitioner unknown, having or claiming to have any right, title, interest, claim or estate in or to certain lands lying and being in the County of Grenada, State of Mississippi, and more particularly described as follows, to-wit:

COMMENCING at the SW corner of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of Section 15, Township 21 North, Range 5 East of the Choctaw Meridian, Grenada County, Mississippi; thence N 0 degrees 53' W with the west line of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of said Section 15 a distance of 17.25 feet for a point of beginning; thence N 0 degrees 53' W with the west line of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of said Section 15 a distance of 567.29 feet to the south line of the right of way of the Mississippi Power Company; thence N 97 degrees 22' E with the south line of said right of way 1843.77 feet, and to the west edge of the right of way of State Highway number US-61; thence S 30 degrees 00' W with the west edge of said right of way 431.23 feet; thence S 61 degrees 51' W 205.80 feet; thence S 20 degrees 30' E 481.96 feet; thence S 43 degrees 30' W 47.10 feet; thence N 46 degrees 10' W 20.00 feet; thence S 43 degrees 57' W 20 feet; thence S 46 degrees 50' W 741.18 feet; thence N 21 degrees 41' W 53.84 feet; thence S 71 degrees 59' W 307.58 feet, and to the east edge of the right of way of the old Grenada-Duck Hill Road; thence N 49 degrees 00' W with the east edge of said right of way 1043.06 feet; thence N 41 degrees 36' W with the east edge of said right of way 78.26 feet and to the point of beginning, containing 20.619 acres, more or less, EXCEPTING THEREFROM a strip of land containing 0.611 acres within a recorded easement of the Mississippi Power Company, crossing the southeast corner of the above described land, leaving a net acreage of 20.008 acres, as shown on Schedule B attached hereto and by reference made a part hereof; together with all improvements thereon.

The above described tract of land may be divided into parcels as follows:

PARCEL NO. 1-B

COMMENCING at the SW corner of the NW $\frac{1}{4}$  of NE $\frac{1}{4}$  of Sec. 15, Township 21 North, Range 5 East of the Choctaw Meridian; thence N 0 degrees 53' W with the west line of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of said Section 15 a distance of 17.25 feet for a point of beginning; thence N 0 degrees 53' W with the west line of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of said Section 15 a distance of 567.29 feet to the south line of the right of way of the Mississippi Power Company; thence N 97 degrees 22' E with the south line of said right of way 1843.77 feet, and to the west edge of the right of way of State Highway number US-61; thence S 30 degrees 00' W with the west edge of said right of way 431.23 feet; thence S 61 degrees 51' W 205.80 feet; thence S 20 degrees 30' E 481.96 feet; thence S 43 degrees 30' W 47.10 feet; thence N 46 degrees 10' W 20.00 feet; thence S 43 degrees 57' W 20 feet; thence S 46 degrees 50' W 741.18 feet; thence N 21 degrees 41' W 53.84 feet; thence S 71 degrees 59' W 307.58 feet, and to the east edge of the right of way of the old Grenada-Duck Hill Road; thence N 49 degrees 00' W with the east edge of said right of way 1043.06 feet; thence N 41 degrees 36' W with the east edge of said right of way 78.26 feet and to the point of beginning, containing 20.619 acres, more or less, EXCEPTING THEREFROM a strip of land containing 0.611 acres within a recorded easement of the Mississippi Power Company, crossing the southeast corner of the above described land, leaving a net acreage of 20.008 acres, as shown on Schedule B attached hereto and by reference made a part hereof; together with all improvements thereon.

PARCEL NO. 2

COMMENCING at the SW corner of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of Section 15, Township 21 North, Range 5 East of the Choctaw Meridian; thence N 87 degrees 42' E with the south line of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of said Section 15 a distance of 811.81 feet for a point of beginning; thence N 88 degrees 10' W 346.28 feet and to the south line of the right of way of the Mississippi Power Company; thence S 87 degrees 42' W 707.30 feet and to the west edge of the right of way of the old Grenada-Duck Hill Road; thence N 41 degrees 59' W with the east edge of said right of way 22.26 feet and to the point of beginning, containing 8.470 acres, more or less.

PARCEL NO. 3

COMMENCING at the SW corner of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of Section 15, Township 21 North, Range 5 East of the Choctaw Meridian; thence N 87 degrees 42' E with the south line of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of said Section 15 a distance of 1391.10 feet for a point of beginning; thence N 88 degrees 06' W 315.00 feet; thence N 87 degrees 42' E 280.00 feet and to the west edge of the right of way of State Highway number US-61; thence S 80 degrees 06' E 315.00 feet; thence S 87 degrees 42' W 570.20 feet and to the point of beginning, containing 10.117 acres, more or less.

PARCEL NO. 4-A

COMMENCING AT THE SW corner of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of Section 15, Township 21 North, Range 5 East

of the Choctaw Meridian; thence N 87 degrees 42' E 14.51 feet for a point of beginning; thence N 87 degrees 42' E with the south line of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of said Section 15 a distance of 1423.50 feet; thence S 29 degrees 39' E 204.37 feet and to the north edge of the recorded easement right of way of the Mississippi Power Company; thence S 31 degrees 55' W with the north edge of said right of way 308.61 feet; thence S 17 degrees 07' W 123.64 feet and to the north edge of a farm road; thence S 48 degrees 44' W with the north edge of said road 1043.06 feet; thence N 41 degrees 26' W 56.00 feet and to the point of beginning, containing 19.327 acres, more or less; together with all improvements thereon.

PARCEL NO. 4-B

COMMENCING at the SW corner of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of Section 15, Township 21 North, Range 5 East of the Choctaw Meridian; thence N 87 degrees 42' E with the south line of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of said Section 15 a distance of 1423.50 feet; thence S 29 degrees 39' E 204.37 feet and to the north edge of the recorded easement right of way of the Mississippi Power Company; thence S 31 degrees 55' W with the north edge of said right of way 308.61 feet; thence S 17 degrees 07' W 123.64 feet and to the north edge of a farm road; thence S 48 degrees 44' W with the north edge of said road 1043.06 feet; thence N 41 degrees 26' W 56.00 feet and to the point of beginning, containing 19.327 acres, more or less; together with all improvements thereon.

PARCEL NO. 4-C

COMMENCING at the SW corner of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of Section 15, Township 21 North, Range 5 East of the Choctaw Meridian; thence N 87 degrees 42' E with the south line of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of said Section 15 a distance of 1423.50 feet; thence S 29 degrees 39' E 204.37 feet and to the north edge of the recorded easement right of way of the Mississippi Power Company; thence S 31 degrees 55' W with the north edge of said right of way 308.61 feet; thence S 17 degrees 07' W 123.64 feet and to the north edge of a farm road; thence S 48 degrees 44' W with the north edge of said road 1043.06 feet; thence N 41 degrees 26' W 56.00 feet and to the point of beginning, containing 19.327 acres, more or less; together with all improvements thereon.

PARCEL NO. 4-D

COMMENCING at the SW corner of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of Section 15, Township 21 North, Range 5 East of the Choctaw Meridian; thence N 87 degrees 42' E with the south line of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of said Section 15 a distance of 1423.50 feet; thence S 29 degrees 39' E 204.37 feet and to the north edge of the recorded easement right of way of the Mississippi Power Company; thence S 31 degrees 55' W with the north edge of said right of way 308.61 feet; thence S 17 degrees 07' W 123.64 feet and to the north edge of a farm road; thence S 48 degrees 44' W with the north edge of said road 1043.06 feet; thence N 41 degrees 26' W 56.00 feet and to the point of beginning, containing 19.327 acres, more or less; together with all improvements thereon.

PARCEL NO. 4-E

COMMENCING at the SW corner of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of Section 15, Township 21 North, Range 5 East of the Choctaw Meridian; thence N 87 degrees 42' E with the south line of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of said Section 15 a distance of 1423.50 feet; thence S 29 degrees 39' E 204.37 feet and to the north edge of the recorded easement right of way of the Mississippi Power Company; thence S 31 degrees 55' W with the north edge of said right of way 308.61 feet; thence S 17 degrees 07' W 123.64 feet and to the north edge of a farm road; thence S 48 degrees 44' W with the north edge of said road 1043.06 feet; thence N 41 degrees 26' W 56.00 feet and to the point of beginning, containing 19.327 acres, more or less; together with all improvements thereon.

PARCEL NO. 4-F

COMMENCING at the SW corner of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of Section 15, Township 21 North, Range 5 East of the Choctaw Meridian; thence N 87 degrees 42' E with the south line of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of said Section 15 a distance of 1423.50 feet; thence S 29 degrees 39' E 204.37 feet and to the north edge of the recorded easement right of way of the Mississippi Power Company; thence S 31 degrees 55' W with the north edge of said right of way 308.61 feet; thence S 17 degrees 07' W 123.64 feet and to the north edge of a farm road; thence S 48 degrees 44' W with the north edge of said road 1043.06 feet; thence N 41 degrees 26' W 56.00 feet and to the point of beginning, containing 19.327 acres, more or less; together with all improvements thereon.

PARCEL NO. 4-G

COMMENCING at the SW corner of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of Section 15, Township 21 North, Range 5 East of the Choctaw Meridian; thence N 87 degrees 42' E with the south line of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of said Section 15 a distance of 1423.50 feet; thence S 29 degrees 39' E 204.37 feet and to the north edge of the recorded easement right of way of the Mississippi Power Company; thence S 31 degrees 55' W with the north edge of said right of way 308.61 feet; thence S 17 degrees 07' W 123.64 feet and to the north edge of a farm road; thence S 48 degrees 44' W with the north edge of said road 1043.06 feet; thence N 41 degrees 26' W 56.00 feet and to the point of beginning, containing 19.327 acres, more or less; together with all improvements thereon.

PARCEL NO. 4-H

COMMENCING at the SW corner of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of Section 15, Township 21 North, Range 5 East of the Choctaw Meridian; thence N 87 degrees 42' E with the south line of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of said Section 15 a distance of 1423.50 feet; thence S 29 degrees 39' E 204.37 feet and to the north edge of the recorded easement right of way of the Mississippi Power Company; thence S 31 degrees 55' W with the north edge of said right of way 308.61 feet; thence S 17 degrees 07' W 123.64 feet and to the north edge of a farm road; thence S 48 degrees 44' W with the north edge of said road 1043.06 feet; thence N 41 degrees 26' W 56.00 feet and to the point of beginning, containing 19.327 acres, more or less; together with all improvements thereon.

PARCEL NO. 4-I

COMMENCING at the SW corner of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of Section 15, Township 21 North, Range 5 East of the Choctaw Meridian; thence N 87 degrees 42' E with the south line of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of said Section 15 a distance of 1423.50 feet; thence S 29 degrees 39' E 204.37 feet and to the north edge of the recorded easement right of way of the Mississippi Power Company; thence S 31 degrees 55' W with the north edge of said right of way 308.61 feet; thence S 17 degrees 07' W 123.64 feet and to the north edge of a farm road; thence S 48 degrees 44' W with the north edge of said road 1043.06 feet; thence N 41 degrees 26' W 56.00 feet and to the point of beginning, containing 19.327 acres, more or less; together with all improvements thereon.

PARCEL NO. 4-J

COMMENCING at the SW corner of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of Section 15, Township 21 North, Range 5 East of the Choctaw Meridian; thence N 87 degrees 42' E with the south line of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of said Section 15 a distance of 1423.50 feet; thence S 29 degrees 39' E 204.37 feet and to the north edge of the recorded easement right of way of the Mississippi Power Company; thence S 31 degrees 55' W with the north edge of said right of way 308.61 feet; thence S 17 degrees 07' W 123.64 feet and to the north edge of a farm road; thence S 48 degrees 44' W with the north edge of said road 1043.06 feet; thence N 41 degrees 26' W 56.00 feet and to the point of beginning, containing 19.327 acres, more or less; together with all improvements thereon.

PARCEL NO. 4-K

COMMENCING at the SW corner of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of Section 15, Township 21 North, Range 5 East of the Choctaw Meridian; thence N 87 degrees 42' E with the south line of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of said Section 15 a distance of 1423.50 feet; thence S 29 degrees 39' E 204.37 feet and to the north edge of the recorded easement right of way of the Mississippi Power Company; thence S 31 degrees 55' W with the north edge of said right of way 308.61 feet; thence S 17 degrees 07' W 123.64 feet and to the north edge of a farm road; thence S 48 degrees 44' W with the north edge of said road 1043.06 feet; thence N 41 degrees 26' W 56.00 feet and to the point of beginning, containing 19.327 acres, more or less; together with all improvements thereon.

PARCEL NO. 4-L

COMMENCING AT THE SW corner of the NW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of Section 15, Township 21 North, Range 5 East

## NORRIS-HONEYCUTT

A wedding of wide interest throughout the South occurred on June 12th, when Mary Douglass Honeycutt, daughter of Mr. and Mrs. Hervey Lee Honeycutt, of Grenada, became the bride of Aviation Cadet Robert Harry Norris, Jr., the son of Mr. and Mrs. R. H. Norris, of Glasgow, Ky., in a simple ceremony performed at Blytheville Army Air Field, Blytheville, Ark.

Rev. J. A. Lindsey, Methodist Chaplain at High Point, N.C. saying the vows in the presence of a small group of relatives and friends.

The charming bride graduated this summer at Centre College, Danville, Ky., where she was a member of the Pitkin Society whose organization is composed of students chosen for their outstanding qualities and progress during the first weeks at Centre. In May of '42 Miss Honeycutt was crowned "Home Coming Queen" and her picture was published on Charn page of "Olde Centre" College Yearbook. She was a staff member of the Y. M. C. A. and of the Student Council. In High School she was chosen a member of the National Honor Society, was an honor graduate and served two years as band sponsor. She possesses that rare charm of personality which endeared her to her wide circle of friends here and elsewhere.

The groom, who is to graduate from the Army Aviation School of training at Blytheville in July is one of Glasgow's most popular and prominent young men. He is an honor graduate of Columbia Military Academy, Columbia, Tenn., and is a member of Beta Theta Phi fraternity. He attended the University of North Carolina and Centre College, Danville, Ky.

Cadet Norris is now in advanced training at the Blytheville Army Air Field, where he will receive his commission in July.

Mrs. Pat Mullin, of Grenada, sister of the bride, was matron of honor and Cadet S. R. Davis, of Cleveland, Ohio, was best man.

For her wedding the bride wore a two-piece suit of heavy white silk with all white accessories. Her hat was a petite white hat trimmed with French flowers. Her corsage was of deep pink carnations.

Mr. and Mrs. Honeycutt and two of their daughters, Mrs. Jimmie Todd and Mrs. Pat Mullin attended the wedding from Grenada. The young couple will reside in Blytheville for the present.

Pvt. John Rufus Perry, of Eglin Field, Fla., visited his mother, Mrs. Claud Perry and family this past week end.

Miss Helen Rose, teacher at Jackson, Miss., is at home for summer vacation.

We failed to mention that Miss Mary Crowder, member of the faculty at Holly Springs is at home for the summer visiting her mother, Mrs. W. H. Crowder.

Sgt. John Sidney Sharp, who is in the Air Corps, at a Texas Field, visited his parents, Dr. and Mrs. J. N. Sharp.

Mr. and Mrs. Charlie Cathey and two children are spending this week with their parents, Mr. and Mrs. Tom Cathey in Montgomery, Ala. They left Tuesday.

Clt. Bailey, Jr., who is studying dentistry in Chicago left Monday to resume his studies after a ten day visit here with his parents, Dr. and Mrs. C. K. Bailey.

Midshipman Elliott Reed, stationed at Chapel Hill, N.C. is spending his furlough here in the home of Mr. and Mrs. Hurd Horton as Mary Elizabeth's guest.

Sgt. Joe I. Mitchell, Jr., of Camp Shelby, visited his parents at their home in Tishomingo the past week. Their other son is in Australia.

Mrs. Robert Norris, Jr., of Blytheville, Ark., nee Mary Douglass Honeycutt, of Grenada, arrived Tuesday for a visit with her parents, Mr. and H. L. Honeycutt.

Lt. and Mrs. Jack R. Carter, who are being transferred from Fort Sill to Camp Gordon, spent Friday and Saturday with their mother, Mrs. W. H. Carter in Grenada.

Mr. Morrison Thomas, of Birmingham, visited his mother, Mrs. B. F. Thomas and family for several days last week.

Patricia Sage, attractive little daughter of Mr. and Mrs. John Sage visited her grandparents, Mr. and Mrs. John L. Skin the past week and has returned to her home.

Relatives attending the funeral of Mrs. T. F. Lawrence, of Thursday, June 22 included Mrs. Rice Lawrence, of Greenville; Mrs. Malcolm Lawrence and two sons, Elliott and Malcolm, Jr., of Fayetteville, Ark., Mr. and Mrs. Douglas Grantham, of Greenwood, Misses Marybel and Louise Crane, of Jackson, (sisters of Mrs. Lawrence) and a group of friends from Jackson and Greenwood.

Mrs. Norma Caldwell, of Jackson, is the guest this week of her sisters, Madame Wm. Mitchell, A. W. George and F. T. Gerard.

Mrs. Charles Dickinson, who with her husband, has moved from Pine Bluff, Arkansas to Jackson, Miss., is keeping him company while Mrs. Jordan is in Chicago.

Mrs. John Keeton has returned home from Sheppard Field, Texas, where she visited her son, Aviation Cadet Benton Keeton.

Leon Provine, student at Northwestern, Chicago, is at home for a short stay before leaving for California with his mother, Mrs. E. B. Provine. The plan is to visit their daughter and sister, Mrs. Campbell and family.

Mrs. Elliott Lawrence, Mr. and Mrs. Edgar Lawrence and children, of Greenwood, Mrs. Hiram Wiley, of Blytheville, Ark., the former Miss Herl Lawrence, arrived here Monday when notified of their mother's illness. Mrs. Elliott Lawrence, of Greenwood came Sunday night when Mrs. Lawrence first became ill. Mrs. Jimmie Yerger, the former Miss Bernice Lawrence and Mr. Yerger of Greenville, arrived Tuesday as did Rice Lawrence, of Fort Riley, Kansas.

Carolyn Whitaker, of All Saints Episcopal College, Vicksburg is at home for the summer. Dorothy Whitaker, who is at Columbia, Mo., has enrolled for the summer term as a senior. They are the daughters of Mr. and Mrs. W. W. Whitaker.

MRS. BOTELER ENTERTAINS  
On Tuesday of last week (June 15) Mrs. E. L. Boteler, Sr., entertained graciously at her home in honor of the out-of-town guests here to attend the Boteler-Jardines wedding on Tuesday evening.

At noon a lovely luncheon plate was served to approximately twenty guests. The home was charmingly arranged and decorated for this occasion.

Sgt. Bill Murray, of Army Signal, spent the weekend at home with his wife and parents, Mr. and Mrs. John Murray.

Howard Mrs. E. L. Boteler, Jr., enjoyed some Sunday evening from their honeymoon trip to Knob Hill, Tennessee, and other towns in Tennessee.

Mr. and Mrs. Lee Roy Webber and children with their mother, Mrs. Porter of Memphis, spent the past week and with their sister and daughter Mrs. Fred White and family, Mr. Porter remained here for a visit.

Lt. Frank Sims visited friends here the past week end. His mother resides in Jackson.

Miss Hazel Inman and Miss Mary Whitehead accompanied Mrs. John E. Carpenter to California, leaving here last Thursday. Hazel will visit her sister, Mrs. Gladys Rule and family.

Lt. Frank Sims visited with his friends here in Grenada the past week end. He left with the home company and has recently received his commission.

Mrs. M. J. Waldrop and little son, Sam, have returned home from a visit with their husband and father, who is working in a defense plant in Louisville, Ky.

Lt. Sims spent last week end visiting friends at Mississippi State College.

Miss Mary Strahan visited her relatives at Mississippi State College, Starkville for two weeks recently, and returned home Friday last.

Mrs. John C. Wade and daughter, Miss Cynthia, have visited their husband and father, Col. Wade at Alexandria the past week. They stopped at the beautiful Hotel Bentley.

Mrs. Robert Norris, Jr., of Blytheville, Ark., nee Mary Douglass Honeycutt, of Grenada, arrived Tuesday for a visit with her parents, Mr. and H. L. Honeycutt.

Lt. and Mrs. Jack R. Carter, who are being transferred from Fort Sill to Camp Gordon, spent Friday and Saturday with their mother, Mrs. W. H. Carter in Grenada.

Budget your points by the week . . . Shop early . . . Spend 1/4th of your stamps for fats — they are vital energy foods!

Food is war material—just as guns and tanks and planes are. Food is rationed at home so that everyone may have a fair and equal share. It's up to you to use your ration points wisely . . . to plan meals that will keep your family healthy and strong!

The red stamps in your ration book must go for meat, cheese and fats. Budget them each week. Don't spend them for meat alone. Government nutrition experts say 1/4 of your red stamps should be used for fats.

Fats are the richest source of food energy. You need them in your diet.

Meals prepared with fat taste good . . . they're satisfying and hearty!

Use the chart below when you shop for rationed fats and shortenings. Buy those which best serve your needs. For instance, you'll want butter or vitamin-enriched margarine for table use. Then perhaps you'll choose a high-quality vegetable shortening for cooking. You can use it for cakes and pies and hot breads . . . for fried foods . . . for sauces and gravies.

And be sure to save meat drippings—they can be used in many ways to increase your fat ration. And when drippings have served their purpose in the kitchen, turn them in to your butcher!

### USE THIS CHART FOR SELECTING RATIONED FATS AND SHORTENINGS

(Check marks indicate that these are noted in the chart to give relatively results for the use specified)		SPREAD	PAN-FRYING	BRAISING	CAKES	HOT BEANS	COOKIES	PIES	RADISHES	SAUCES & GRAVIES
BUTTER										
MARGARINE										
VEGETABLE SHORTENING										
LARD										
COOKING or SALAD OIL

## Your Cooperation Solicited

Up to and including this week, the GCW has had an abundance of help and until now we have asked no special consideration of our readers, our advertisers and our job customers, for we have been able to proceed as we did in the piping times of peace. The picture has now changed. Mr. Greenfield has resigned and accepted another position and we have only one man, Mr. D. H. Horn, in the "back end." In short, we have become subject to conditions that practically all other businesses have been faced with for many months—shortness of help.

In the emergency, people have cheerfully tooted their own trumpets, have become accustomed to long delays in getting their laundry work, have forgotten all about the milk bottle on the porch at daylight, have accepted what have crawled trains, buses and airships, and, in general, have fitted sole lives to the drastic changes brought about by war conditions.

The GCW has NEVER failed to reach the subscriber in Grenada on time, and we do not expect to see it delayed late in the future, but it is now our turn to seek the cooperation of OUR friends. If Horn, the old lady and I hold out, the standards of the GCW will not be lowered, nor will the standards of our job printing be lowered.

In view of the changed conditions we, therefore, solicit you to help in the following ways:

1. Make the news items that you yourself write short and to the point and DO NOT wait until Thursday morning to get them in to the office. We can not handle ANYTHING but the most important stuff on Thursdays.

2. Notify us promptly of any change in your address.

3. Notice your expiration date on your own paper, and renew promptly, or notify us that you do not want the paper beyond the expiration date. This will save us sending out notices. You have a notice each and every week on that little notation, "4-43", "6-43", etc.

4. As we are not going to turn on our casting box—the contraption that makes cuts from mats—but once a week, and then Wednesday afternoon or night, ads requiring the use of mats MUST be "in" by Wednesday afternoon. This same rule applies to ALL ad copy, except occasionally we will take an easy-to-set ad early Thursday, but we reserve the right to pass judgment on that point, depending on the task that faces us Thursday.

5. Except under extraordinary circumstances, we can not deliver printed matter during the middle of the week. Most of our printing must be done on Fridays and Saturdays; some on Mondays. The job customer can, therefore, help by anticipating his needs and give us a little time; just as we have to wait patiently on laundry work, on express shipments, etc.

We have tried to do a good job, and, with cooperation from our friends, we can continue to do a good job.

## The Damnest Era In History

When the history of the era from 1933 until the end of the New Deal is written, I venture to say that the calm historian, viewing the era perspective, will say that it was the most foolish, the most wasteful and the least fruitful era in the history of the United States.

The United States is a great nation, otherwise it could not have survived the first World War, largely paid for by this nation, the New Deal era (which is continuing with unabated wastefulness during the present war), and the war we are now engaged in.

It was just reading a speech in the Congressional Record by Mr. Plessier, of Missouri, who was speaking on the subject, OPO (Office of Political Administration). On November 1, 1942, the OPA had on its pay roll 35,720 persons, over 2,000 of whom were drawing \$4,000.00 a year or more. Today the OPA is asking for 70,000 employees. He stated that only 2 of the ten thousand in the OPA had any business experience. Only one, said the Congressman, had any experience in business of his own. He stated that in an interrogation of OPA officials, it was asked if anyone in charge of a unit had practical experience in the line of business and the astonishing reply was that "your criticism of the top is probably true." My God, the OPA uses businessmen, if it has any, in subordinate positions.

Turning to the next copy of the Congressional Record, I find Senator Byrd, of Virginia, turning in his report. He stated that there were less than a million civilian employees on the federal pay roll at the close of the last war on November 11, 1918, or at the rate of one civilian to 5 soldiers. Today there are over three million civilians on the federal pay roll, or one civilian to two soldiers. Today, he said, one out of every 25 persons, excluding those in the military forces, is on the federal pay roll. Senator Byrd, a voice of sanity crying in the wilderness of dampness, and an eternal advocate of reduced federal expenditures, says that 700,000 persons could today be lopped from the federal pay roll at no loss to the war effort. "The Government," he says, "cannot expect full measure of sacrifice from the people unless it sets an example." How can the people who have lost their sons, the people who get high blood pressure from points, ration cards and restrictions of all kinds that some damn fool can think up, the people who are expected to produce more food with worn out tools, the people who deny themselves to buy war bonds, and the countless other millions who are supposed to "sit and take it," how can the Government, I ask, expect them to be gracious about these sacrifices when they see the Government (with taxes extracted from them) carrying 700,000 useless deadheads on the pay roll? How can they "sit and take it" graciously when they see the President, or his agents, pussyfooting with John L. Lewis and his ilk?

The old RFC, the CWA, the WPA, the PWA, the FSA and the XYZ were merely peacetime pickers coaxed to the wastrels, disguised as elders in the way, who rosin the country and eat our substance today.

Oh, me.

## I Have Been Cut Off

The Sumner Sentinel owes the Postoffice Department a cent less for this week's mailing than it did for last week's mailing for it did not send me a copy of this Murphree organ.

You see the Sumner Sentinel has, or claimed to have been sending out copies by the tens of thousands all over the State of Mississippi to non-subscribers, I claim that it is strictly against postal laws for newspapers to be sent to non-subscribers—except to a definitely small limit—under the pound rate, or the so-called cheap second class mail rate. I claim that three sample copies may be sent under the cheap rate to a person. If the copies are clearly marked SAMPLE COPIES, I claim that the number of sample copies, so marked, is limited to a certain percent of the paid-up subscription list.

If the practice now being indulged in by the Sumner Sentinel were carried out generally, most legitimate newspapers would be driven into bankruptcy, for these reasons: a man could establish a so-called newspaper, fill it full of ads, mail it under the 2nd Class privilege to every person in the county or, for that matter, the state or nation. That is not allowed, then why is the Sumner Sentinel allowed to be spread all over the State at a postal cost of comparatively nothing?

As asked in last week's issue of the GCW, why does the Publishers' Auxiliary pay a cent a copy to mail out free copies. This is a legitimate newspaper and could, if it did not want to use instead of ABUSE the 2nd class privilege, effect exchange agreements with almost every one of the thousands of newspapers which receive this very interesting trade publication.

I want the postal inspectors to get hold of this question and answer it: why was one issue of the GCW (which contained some sort of "gift" ad, and technically a violation of the lottery laws) virtually barred from the mails, forcing me to deliver the issue by hand, car and bus; and, now, the Sumner Sentinel is broadcast wholesale all over an entire state to non-subscribers, without charge and using the cheap rate. I have written a letter on the subject to our local postmaster and have received the following reply which verifies everything I have said:

Dear Mr. Whitaker:

In reply to your letter of June 20, 1943 relative to the mailing of large number of free copies of some of the issues of The Grenada County Weekly, please be advised that the following are the instructions that this post office has in such a case. As follows:

Only 10% of yearly mailings to subscribers can be mailed to non-subscribers at the second class pound rates. The remaining part can be mailed at the transient 2nd class rate of one cent for each two ounces; postage to be paid by stamps affixed to each piece. Or, mailing may be made under permit as printed matter at the rate of 12¢ per pound with a minimum charge of one cent per piece. The charge for this type of permit is \$10.00, and mailing could be made without stamp affixed but would require the indicia to be printed on each piece mailed, as required for circulars mailed under permit.

Trusting that this information may answer the question which you have asked, paragraph 2. of your letter and that it may meet with your approval, I am

Yours truly,

R. D. SHARP, Postmaster.

## Conner Paved The Way

Mike Conner blazed the trail and paved the way for a better Mississippi. It was his efforts that made the White and the Johnson administrations successful, for it was he who placed the State of Mississippi on a solid financial base.

With a busted treasury, with a world wide depression, it was his part to sow the seeds, and the part of his successors to reap the harvest of better things for the people.

Without Mike's efforts to stabilize the finances of Mississippi, Hugh White could not have borrowed the millions necessary to give Mississippi one of the best systems of roads in the Nation. Without his efforts to establish the sales tax—the bummer of Mississippi finance, homestead exemptions would not be possible. Without his blazing the way for a better revenue system, the free text books for the state's children would have been impossible. Without his determined stand to clean up the mess that Bibb left the colleges in, our state educational system would continue to be in chaos. Without his efforts, it would not have been possible to exempt from taxation the cattle, hogs, mules, horses and wagons of the small farmers.

Last election it was Conner who received the cussing, while Hugh White basked in the praise of the people, and while Paul Johnson, capitalizing on Conner's preliminary work, promised (and gave) free text books and greater assistance to the aged people. This year, the people have their eyes open to the fact that Mike Conner made the above good things (and many others) possible, by first forming a good foundation for the state's credit and by establishing a revenue system that no successor has dared to repeat.

As this is written, the average Mississippian has more money than he ever had, this being due to the enormous spending of borrowed government money. "Pay day" is sure to come during the next four years and the state will need a man of Conner's resourcefulness and, if you please, hard headedness, to cope with the headaches and the heart aches of reconstruction. Unlike his two immediate successors, Governor White and Johnson, he can not merely drift thru four years of plenty. Why he wanted to abandon the peso and tranquility of a life secure from worry and trouble, I can not answer; but, since he has done so, it is up to the people Mississippi to elect him to a position where his extraordinary talents can be used for their benefit.

For Conner sowed, while his successors reaped, and, most likely, Conner will have to sow again.

## Kill That Rumor!

When you hear a story about the war test against the following points:

1. Will it hurt morale?
2. Does it make you distrust your government, business, or labor? (Divide and Rule is Hitler's policy.)
3. Does such a rumor tend to discredit our Allies?
4. Who would benefit most by spreading the rumor—our enemies or the United States?

If the story won't pass this test, don't repeat it. And the next time you hear one like it, pass this information along instead of the rumor.

Mike Conner exempted your miles, your tools, your cattle and work animals from the tax roll.

## Some Folks Think

Some folks think that they are dividing their business (?) fairly when they give their news items to the newspaper and their printing orders to the commercial printer.

In this day and time, when advertising revenue is almost nil, no newspaper can maintain anything like its regular standards on such a division of business (?) I see copies of newspapers from all over the state. Some of them are slowly starving to death. In the meantime these plants no doubt are fully capable of taking care of most, if not all, of the job printing of the community. This statement, of course, applies primarily to the newspapers in the many smaller county seats throughout the state.

Personally the GCW has no grounds for kicking, for we preached this true gospel so much that enough people saw the justice of it to provide us with enough job work to keep us going.

## Unrationed Electricity

I believe that bread and electricity are the only major necessities that are not rationed in this country.

That electricity is not rationed is a tribute to the forethought of the executives of the various power companies (unless they have been through the years).

While we hint that electricity will be rationed yet has been made, it behoves the users of this vital commodity to use it sparingly. It behoves them to refrain from wasting a single watt. If the industry has carried the load so far, it may continue to carry the load.

I saw an ad somewhere recently. It depicted a man with a bundle of tallow candles that would stagger an ox. This huge bundle of candles would cost probably about six or seven dollars, yet would supply less illumination than a dollar's worth of electricity, and NO

Seen, Heard and Told  
By The Editor

It has been suggested that we change the name of Green Street to la de Avenue de la Broken Commodity. I second the motion.

Aint they sweet.

As this is being written, our very latest subscriber is Mrs. W. T. Lance, of this city.

Some way or another I can not believe that John L. Lewis is bigger than the United States.

One of these here WAVES and one of these here SPARS, accompanied by Chief Petty Officer, visited us recently. I believe I like them better than WAACS, yet I know that, if there had been WAACS in the last war, I would have had more corns on my feet and less on my posterior anatomy.

Some big shot from the Federal Security Agency was in the office Monday, explaining why Grenada had not received any action in the matter of USO facilities. His tale is too long to repeat this hot weather. Suffice to say somebody has muffed the ball, and missed the train.

Dear Friend:—

I want to take this opportunity to solicit your vote for re-election as your Supervisor. It has been my aim to give you an honest and efficient administration and take care of the Beat's interests.

During my term the bonded indebtedness has been reduced from \$33,000 to \$19,700. All of the beat's machinery and equipment has been paid for and is in good condition. The tax rate in the District is 3.25 mills lower than when I took office and the funds of the District are in good shape.

If re-elected I pledge my efforts to try to still lower the taxes in the Beat and take care of your interest to the very best of my ability.

Very truly yours,

D. A. Williams

## IN THE NEWS

By Congressman Thos G. Abernethy  
Fourth Mississippi District

**TRAINING STUDENTS FOR WAR.** The outlook for more than 300 colleges under expanded military program is improved. Reports to the Government are that, on the whole, colleges and universities are standing up well. The Army and Navy are continuing to sign up more colleges for their training programs. Eventually the services will have between 300 to 400 colleges and universities under contract. More emphasis will be placed on scientific and technical courses of study, and less on the arts. There will be stress on languages as well as on a wide range of military studies.

The Navy expects to enroll 80,000 students in its new V-12 program by July. The Army is authorized to enrol

a maximum of 150,000 in its specialized training program, but whether this figure is reached will depend upon the need for specialists.

Selective Service policy now is to permit deferment of students enrolled in certain specialized studies who can complete their courses by July 1, 1943. Approximately 12 percent of the male students enrolled in colleges and universities during the last school year were deferred. Many will continue to be eligible for deferment this year, if Selective Service does not change its policy.

There is a feeling among some educators that there will be a large group of boys of freshman age (17 year-olds) who will want to get as much college training as possible before they are called into the service. Boys under draft age are being encouraged to enrol so that they may equip themselves for officer training when they reach Army age and because there is a belief that they will be more likely to

go to college after the war if they have had a taste of it.

**SOLDIERS TO BE PERMITTED TO DO FARM WORK.** Commanders of all posts, camps, stations, divisions and lower units have been authorized to permit soldiers to engage in farm work in nearby communities during "off-duty hours". Soldiers may be granted short passes, not in excess of three days, to engage in farm work in adjoining communities. The granting of these short passes is contingent upon the following conditions:

a. In the opinion of the commander concerned, an emergency exists in the nearby farm community due to the shortage of available farm labor.

b. The soldier concerned desires permission to engage in farm work.

c. SSe action will not interfere with the cas-

tumary employment and regular engagement in farm work of local civilians, d. Such action will not seriously interfere with training.

Soldiers will not be granted furloughs to engage in farm work. The performance of farm work by soldiers during off-duty periods, or while on pass, will not involve expense to the Government and the pay for services rendered by the individual and all other conditions of his employment will be left to the determination of the individual soldier and his farm employer, insofar as the Army is concerned.

The engaging of soldiers for farm work is processed through the contact of the farmer desiring workers and

the Commanding Officers if a nearby tractor tires will be permitted to purchase suitable substitutes when they are unable to find a dealer with tires.

**BIG GAIN IN OUTPUT OF FARM MACHINERY.** The War Production Board issued regulations covering the expanded production of farm machinery when Chairman Donald M. Nelson allotted 300,000 tons of carbon steel to the farm machinery industry for the 12 months beginning July 1. WPB said the allotment would permit a boost in farm equipment production to nearly double that of a normal year, though only around 80 percent of the production in the banner year, 1940.

The new order permits a producer to make any of 492 listed machinery and equipment items up to a specified percentage of the total net weight of the product manufactured by him in 1940 or 1941, whichever was higher.

**CORN PRODUCTS UNDER CEILINGS.** To prevent possible increases in the prices of a group of important corn products, the OPA has brought under control ground corn, cracked corn, chops, corn bran, hominy feed, corn feed meal, ear corn, chops, and corn meal cake and meal. No action was taken to live with the President's "hold-the-line" order and became effective June 10, 1942.

**INCREASED ALLOWANCE OF SUGAR.** Wholesalers and retailers may apply for temporary increases in their allowable inventories of sugar to meet the anticipated increased demand for home canning. Dealers will be allowed to operate with double their allowable inventories until August 31, 1942.

**FARMERS CAN GET SUBSTITUTIONS.** Effective June, farmers needing farm implement or front-wheel

## NO OTHER MATTRESS IS LIKE IT NO OTHER MATTRESS CAN BE LIKE IT!

A FIVE FOOT BATT OF SELECTED VIRGIN COTTON COMPRESSED INTO A "GIANT PILLOW FOR YOUR BODY"

### Sealy Holds the Magic of Transformation

from a giant five foot batt of live, pure staple cotton into a buoyant Sealy "Air-Woven" Tuftless mattress. All the feely resilience of virgin cotton is retained in the Sealy Tuftless—making it luxuriously soft to conform to the body, yet firm enough to give proper support. "Air-Woven" comfort filling is found only in the Sealy Tuftless—which others have tried to imitate without success—for Sealy alone has perfected through more than 60 years of experience the way to make "The Giant Pillow for Your Body".

THREE GENERATIONS OF TESTIMONY

Many an owner has slept on the same Sealy Tuftless for over 30 years—as proved by letters we have on file from all over the United States. Buying the Sealy Tuftless has become a family tradition. The experiences of the countless thousands who have purchased this truly fine mattress justify the worldwide prestige of Sealy. All these experiences of satisfied owners assure you that you are getting the outstanding comfort value when you buy this same Sealy Tuftless mattress today.

Sleeping on a Sealy is like sleeping on a cloud

His Pigs Go to War

Young Johnny Clay of Rocky Mount, North Carolina, is typical of farm children raising victory pigs and devoting profits to War Bonds.

## Farm Youth of U. S. Looks to Tomorrow

TOMORROW'S farmers and farm homemakers are second to no school group in their enthusiasm for investing in War Bonds and Stamps to make sure their future is secure. Through the Schools As War program they are investing what they save and earn in War Stamps and Bonds.

First evidence of this is the amount the 4-H Club boys and girls and the FFA boys invested in war savings in 1942 from "Victory Pig" and other projects. A million and a half 4-H Club members put \$6,000,000 of their own savings in War Bonds and Stamps and sold \$2,500,000 worth of War Savings to their neighbors. Nearly a quarter million members of Future Farmers of America invested more than \$1,500,000.

Spurred by the realization that the financial welfare of farm families the next 20 years depends on how wisely they use today's higher incomes from increased food and other wartime production, both groups have set their goals still higher for 1943.

These farm youths are building financial reserves, and urging their parents to do the same, for after-the-war necessities, to meet financial emergencies and to help them get started in college.

They're building reserves today for tomorrow's farm buildings and for the other things they will need when they're tomorrow's farmers and homemakers.

### WEEKLY NEWS ANALYSIS

## Chinese Army Steps Up Anti-Jap Drive; Pantelleria Victory Prepares Way for Allied Sweep of Entire Mediterranean; Farm Implement Output Will Be Doubled

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

Released by Western Newspaper Union.

France officially repaid some of its debt to America when Gen. Henri Giraud (right) invested United Nations Commander-in-Chief Dwight Eisenhower with the grand cross of the Legion of Honor at a ceremony in Algiers.

### MEDITERRANEAN:

#### Pantelleria First Step

The Allied assault to reduce Italy's island buffer defenses preparatory to mainland operations had continued to give the Mediterranean area star billing over other theaters of war.

The capture of the island fortress of Pantelleria was significant not only because it was the first effective Allied milestone since the African victory, but it consolidated United Nations control over east-west shipping in the Mediterranean as well. Moreover, by breaking through Italy's outer wall it paved the way for a cleanup of the more important islands of Sicily and Sardinia and for operations on the continent.

The steady and methodically violent destruction of Pantelleria's defenses was regarded as a forerunner of what other Axis Mediterranean bases would have to suffer. Day after day Allied bombers had plowed disaster on beleaguered Pantelleria while naval units had blasted its forts with deadly big guns in softening up operations.

In the meantime British dispatches crediting Spanish sources reported that Marshal Erwin Rommel was speeding the compilation of defenses along the French Mediterranean coast. These reports set off what Rommel had been named commander of the so-called Mittelmeer wall.

### IMPLEMENT:

#### Output Doubled

Relief for farmers harassed by a shortage of machinery will be forthcoming as a result of WPB Chairman Donald M. Nelson's announcement that the production of farm implements for the year beginning July 1 will be doubled and the entire "concentration" program imposed on the industry last year will be scrapped.

Mr. Nelson's announcement said that allotments of steel and other materials will be sufficient to boost farm equipment production to 80 per cent of the 1940 level, compared with a current rate of 40 per cent and a quota of only 20 per cent that was in effect early this year.

Meanwhile farm equipment manufacturers were authorized by the War Production Board to place orders for materials for the new program.

### ARGENTINA:

#### Axis Radio Curbed

Action of the new Argentine government in cancelling radio facilities which enabled Axis embassies or nationals to transmit code messages to their capitals was regarded as a step in the direction of bettering Argentina's relations with its South American neighbors as well as the United States.

The government said it took this step in compliance with the resolution adopted at Rio de Janeiro, Brazil, by American foreign ministers against Axis espionage in January, 1942. While the order cancelled radio code facilities for all nations, it struck at the Axis powers since they have no cable connections with Argentina, whereas the Allies are linked directly to Argentina by cable.

### HIGHLIGHTS . . . in the week's news

LEADERS: Hawaii leads the nation in per capita war bond purchases, Secretary of the Treasury Morgenthau reported on the basis of statistical compilations.

PROMOTION: President Roosevelt nominated Rear Adm. Thomas C. Kincaid, commander of joint military operations in the Attu campaign, to be a vice admiral.

### WHEAT:

#### Crop Prospects Dim

Smallest U. S. wheat production since 1934 was indicated by the Department of Agriculture in its report on June crop conditions. The department estimated winter wheat output at 501,702,000 bushels and spring wheat at 226,822,000, or a total of 728,524,000 compared with 981,327,000 bushels harvested last year.

The crop reporting bureau pointed out that winter wheat has been hurt by drought in the Great Plains area and by wet weather in the Eastern Belt. Spring wheat, including a considerable acreage sown where winter wheat was killed, is now favored by generally good moisture, the bureau reported.

A 730,000 bushel wheat crop in 1943 would be about the same as the average for the 1932-41 decade which includes the drought years of the mid '30's. It would, however, be about 150,000 bushels below the average of the last five years.

### COAL:

#### Promise Fulfilled

Noted as a man who keeps his promises, Secretary Ickes fulfilled this reputation when he imposed a fine of \$1 a day on the 530,000 mine workers who participated in the June 1-5 walkout from government-operated pits.

Mr. Ickes declared that before the walkout he had told the miners "we were going to fine them if they went out again."

Mr. Ickes acted in his role of federal fuel director in accordance with the miners' contracts which provide penalties if a miner fails to work without good reason.

Terminating Ickes' action as "a brutal application of economic sanctions," John L. Lewis contended that the contract had expired at the time of the work stoppage, and "the United Mine Workers cannot understand how fines can be levied under the provisions of an expired contract."

### CHINA:

#### More Gains Reported

China carried the Allied attack for further impressive gains in the mid-Yangtze front, supported by strong American air action.

The tempo of the newly born offensive was indicated by a destructive air raid on the enemy's rear positions in which the Jap base of Hongay, largest enemy coal-mining and shipping center on the southern Asiatic coast, in Indo-China, was bombed and docks, warehouses, railroad yards and power facilities heavily damaged.

On the ground the Chinese army was reported by communiques to have inflicted additional heavy casualties on Japanese remnants fleeing from Iltu, south of the main enemy base of Ichang. Field dispatches likewise disclosed that the Chinese had broken the Jap defense line southwest of Hwajung, their next major objective in the Lake Tuning area.

Trying desperately to hold their few remaining strong points, the Japs attempted counterattacks near Ouchihikou, but ran into strong Chinese resistance.

To find possible markets for the brush, experiments are needed to perfect methods of using the tough fiber in weaving hats and mats.

### HIGHLIGHTS . . . in the week's news

AUSTRALIA: Prime Minister John Curtin said the fight to hold the Japanese in the Southwest Pacific had been won and that Australia is safe from invasion.

DRAFT PRELUDE: Jan Vaitin, author of "Out of the Night," is now 1-A in the draft, his publishers announced. He had been held for illegal entry into this country.

### Farm Topics

#### Farmers Advised to Check Hog Cholera

##### Six Common-Sense Precautions Listed

The swine raiser's old enemy, hog cholera, is on the march again—and according to all indications it is likely to be one of the greatest threats to our 1943 war goals in pork production.

Last season nearly 5,000 cholera outbreaks were reported to government authorities, and there were probably that many more which were never officially reported. These widespread outbreaks have undoubtedly left the virus of cholera in thousands of rural areas, ready to renew its attack when it comes in contact with susceptible swine. No one can say exactly what the annual cholera loss is at this time, but it is reliably estimated to be in the neighborhood of \$20,000,000. That much pork, in itself, would go a long way toward meeting our increased production goals this season, according to the American Foundation for Animal Health.

So, the first advice to farmers who are co-operating in the nation's stepped-up hog program is: "Watch out for cholera." Here are a few common-sense precautions which every farmer should take to protect his hogs against this No. 1 swine killer:

1. Have the entire spring pig crop immunized against cholera by the local veterinarian, around weaning time. If this is done while pigs are small, it will take less serum and virus, conserving available supplies needed to take care of this year's larger pig crop.
2. Isolate newly purchased swine for at least two weeks before allowing them to mingle with the home drove.
3. Do not let trucks or wagons drive through your hog lots or pastures. They might carry the virus of cholera on their wheels.
4. Keep out of your neighbor's hog lot, and keep him out of yours.
5. Raise spring pigs on fresh, clean pasture, away from germ-contaminated old hog lots.
6. If any pigs show signs of sickness, have the trouble diagnosed immediately, so protective steps can be taken in time.

Experience shows that one of the principal problems in dealing with hog cholera is its similarity to various other swine diseases. Typical cholera symptoms include a high fever, partial or complete prostration, lack of appetite and listlessness. When food, alcoholic drinks or even water seem to upset your insides, weakening diarrhea can take the joy out of living. Try using famous MISSISSIPPI CORDIAL... Feel peppler, stronger. This family friend has been used for many years by the best physicians in our country. Contains no narcotics or synthetic drugs... Never be without it. Get a bottle today... It's family size, 500, from your drug store.

### Agriculture in Industry

By FLORENCE C. WEED

Vacuum cleaners, carpet sweepers and push brooms made from tropical fibers have decreased the market for the ordinary broom made from the broomcorn plant. At the same time, lower prices do not invite people into buying more brooms.

Broomcorn is unique among agriculture products in that the bristles are the only part of the plant now used. The stalk is left standing in the field and is plowed under the next spring. Some is used for feed but is not much liked by animals.

The plant will grow in most states but commercial production is confined to small sections in Oklahoma, Colorado, New Mexico, Kansas, Texas and Illinois. It is a highly speculative crop because it is too costly to harvest. Any bumper crop will cause violent price fluctuations. During the last ten years, prices have ranged from \$37 a ton in 1932 to \$104 for a short crop in 1934. About \$70 per ton is the average price to the farmer.

Scientists are trying to improve the varieties by cross breeding with other sorghums. They hope to produce a variety with more palatable seeds which livestock will eat.

It would also be advantageous to develop a new kind that will not turn red as this lowers the commercial value of the brush. Manufacturers would also like a better brush without a center stem. Farmers would like one without hair on the chaff which irritates the skin of those working with it.

To find possible markets for the brush, experiments are needed to perfect methods of using the tough fiber in weaving hats and mats.

### Large Cows Give More

Large cows of any breed have the advantage over small ones in milk production. However, it should be remembered that size alone does not necessarily indicate high milk production efficiency. On the other hand, it is well known that size, within the breed, is one of the important factors in economical milk production, and it is dependent both on inheritance and environment. The way the calf is fed after birth is just as important as having proper-sized calves.

boxes. They are still useful for this purpose or for a leave-a-note pad and pencil. If you enjoy working with wood you may want to cut these pockets out by hand with a coping saw as shown here. If you have a jigsaw it is much faster, or you may mark your design and take it to a woodworking shop to be cut out for a few cents.

### ON THE HOME FRONT

with RUTH WYETH SPEARS

EARLY American wall pockets

cut out of light weight pine or spruce or half inch material may have many modern uses. In the kitchen they are just the thing for ration books and a pad for the grocery list. Just inside the front door one will lend a decorative note and make a convenient place for driving gloves and keys.

Originally these pockets were made in a great variety of designs and were used for letter

boxes. They are still useful for this purpose or for a leave-a-note pad and pencil. If you enjoy working with wood you may want to cut these pockets out by hand with a coping saw as shown here. If you have a jigsaw it is much faster, or you may mark your design and take it to a woodworking shop to be cut out for a few cents.

NOTE—Mrs. Spears has made patterns in actual size for three of these Early American letter boxes. The patterns are on one sheet with complete directions for making and finishing. Request Pattern No. 261, enclosing 15 cents

## BRIDGE COM. AND MAIN.

W. A. Martindale \$100.00, Bellgrade Lumber Co. \$881.13.

## Additional Locals

## HORN SIMMONS

Miss Annette Simmons, daughter of Mr. and Mrs. Simmons, of Biloxi, Miss., became the bride of Aviation Cadet Robert Hillman Horn, son of Mr. and Mrs. Durrow Horn, of Grenada at 5 o'clock Friday afternoon, June 15th at the Methodist Parsonage in Balmbridge, Ga. The pastor saying the single ring ceremony in the presence of a small group of friends of the couple.

The bride is a graduate of the Biloxi High School and had two years of nursing training at the Charity Hos-

pital in Jackson, Miss.

The groom is the youngest son of Mr. and Mrs. Horn. He is a graduate of G. H. S. and had two years training at Millsaps College, Jackson, and finished his "pre-med" training at the University of Mississippi. He is now taking his basic training at the Air Base at Balmbridge, Ga.

The young couple will make their home there for the next few months.

Mr. Joe Cottingham and Miss Doris Baughn of Memphis, visited Mr. and Mrs. Cottingham here on Wednesday.

Mr. and Mrs. E. L. Morrow went to Greenville on Monday of this week.

Misses Lucille and Georgia Cook were Memphis visitors on Tuesday.

Mr. George Criss, who was on one of his inspection trips to North Mississipp last week returned home Friday. Through error a telephone message came to Grenada that Mr. Criss was injured. This was a mistake and the many friends here of Mr. and Mrs. Criss are happy to know that no harm came to him.

The home of Mrs. Claud Hall has been the gathering place this week for members of the family who have come to tell Bryan Baker, Jr., a grandson of Mrs. Hall and only son of Mr. and Mrs. B. B. Baker, goodbye before leaving on July 2nd for the army. His paternal aunts, Mrs. John Gray, of Robinsonville, Miss., and Mrs. Grady Gibson, of Meridian and their husbands were here Sunday. To arrive this weekend is Mr. and Mrs. Lynn Parker, of Tupelo and Mr. and Mrs. Frank McWhorter of Carrollton. On Sunday this group will spend the day at the Hall Plantation at Phillip.

Government estimates on food crop prospects are not encouraging at present. Recent floods in the north, severe drought in Western areas darken the national outlook on food. However, it looks as Southerners, as a whole, will have lots of Dixie-grown foodstuffs. Crops are doing unusually well throughout the Southeast.

Not only civilians, but representatives of the armed forces have been having a hard time obtaining beef. Now, livestock slaughterers operating under government inspection are told to set aside 45 percent of the beef which is up to army specifications. So, the boys in service should be better off any how.

## SOUTHERNERS GET TRAINING

For several months the War Manpower Commission has been offering training courses in agriculture. More than half the men and women taking advantage of this training so far are people living in the South.

An increase in the number of criminal prosecutions for violation of gas rationing rules is reported by TPA.

## BIG FIRE LOSSES

Twenty-eight million acres of trees went up in smoke in the Southern states last year. Figures just announced show that nine-tenths of all forest fires occurred in Dixie.

Lumber has been scarce, too. But WPB now announces that farmers can get it for essential agricultural building.

Barbed wire is so scarce that WPB has asked the army to "loan" 20,000 tons of military barbed wire to it for use on farms. The military type has much stinger barbs than the regular sold to farmers.

## HIGH WAR COSTS

Two years ago, we were spending for the defense program at the rate of \$1.50 a month from each one of us. Now, war expenses have skyrocketed, and the average per person cost is more than \$30 a month.

Construction of military camps, shanties, war plants and other facilities is nearing completion, and such building has dropped to about half that of a year ago. It will fall off rapidly from now on.

## MORE RUBBER PLANTS

Construction of synthetic rubber plants is on the increase. But we've built 20,000 million dollars worth of factories, and military establishments to get our war machine rolling.

It's in high gear now. The factories are producing, soldiers have been trained. Heavy fighting is expected this summer.

Seen. Heard and Told  
By The Editor

Therill Costlow whom many people call "Mr. Whitaker", came in a couple of months ahead of time and renewed his soon to expire car on Rural Route 1, and we want to give him a big write-up, picture and everything if a camera can be found to stand the strain.

Several here are going to vote for Mike Conner.

I never saw a church, a picture theatre or a recreation hall in Camp Beauregard during the last war, but it has become customary for the army to furnish these facilities at camp, and the USO to furnish similar facilities in the towns, and I think it is high time that Grenada had something like this. So far, the USO work here has been a dismal failure, for some reason or other. The soldiers are those who suffer, not the civilians.

The new country opened up west of Oxberry furnished the first bloom from Don Moore's place on Mosquito Lake) and the first large bolt (from the place of Mrs. Bessie Ingram, etc.).

Vollie's, Grenada's progressive food emporium, is spending his good money to show how you can utilize your red stamps to the best advantage. This ad should be preserved for future reference.

Major Conant of the 87th Division Headquarters, through his understudy, Lt. Gaspar, undid a large purse and pulled out two bucks for a subscription to the GCW. I used to send a lot of free papers to the camp until it became the practice to get a 1000 power microscope and search the paper for something to fuss about. Anyway, this young Major is welcomed.

FOR SALE: Good mule. Call 22.

FOR SALE: 1941 Chevrolet Master Deluxe Sedan, 5 good tires. Call 747-7. W. Hitt, State Springs, Miss.

## Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes do not do their job well. Now, Dr. Doan's Pills are available to remove impurities that, if retained, may poison the system and upset the entire body machinery.

Symptoms may be nagging backache, persistent pain, loss of appetite, gassing up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength.

Other symptoms of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

There should be no doubt that prompt treatment is the best plan of relief. Use Doan's Pills. Doan's have been helping new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

DOAN'S PILLS

If this is an unusually good issue, it is because the old lady has been it charge; for this hellish heat almost "got" me and I have stayed at home.

While I think the Summer Sentinel is abusing the second class mailing privilege, and while I am not for Murphree a tall for Governor, I am bound to admit that the S. S. editor took Fred Stulen's pants off and gave them about the best quoting I ever saw in the recent issue of the S. S. I believe if I were Fred, I would dig a hole under the pomgranate bush and crawl into it. Bob Brown took the nails with which Fred had repeatedly nailed Mike Conner to the cross of vile persecution and used them to nail Fred to the same cross.

In fact, if I were Mike Conner, I would rather be defeated and returned to my hog farm than to receive support from a man who slandered, vilified, lowrated and denounced me for eight of ten years.

They say that Andy Scruggs has a mighty good crop on the Scruggs place in Beat Five.

Trouble between the negroes and the whites is no doubt inspired by foreign agents bent upon creating discord in this nation. Let's put an end to the quarrel until after the war is won.

Dr. Frank Hayes' new address is Hillman Hospital, Birmingham, where he will serve an internship. Good luck, doc.

Brother W. J. Shackleford, of the FSA (not Farm Security) will receive the GCW in his home in Jackson.

We are happy to add to our list the name of one of Grenada's business merchants, Sam Yolles.

Dink Thomas and wife had a bunch of preachers for a chicken-hen dinner Sunday. Included were Mr. and Mrs. Gypsy Smith, Rev. W. L. Robinson, Rev. G. R. Wiley and daughter, the singer, Mr. Montgomery and Mr. and Mrs. Moore. Dink thought that his

preacher, the long armed Mr. Robinson, was a chicken racher and a chicken-eater, but the others put him to shame. The short-armed preachers could not reach as far, but they could reach other.

Up until 9:25 a.m. Wednesday, June 23, 1945, Grenada has not had TWX fires at the SAME time.

Little Prich Horton has severed his connection with the Veterans Administration in Jackson and has started work with the Dermott (Ark.) State Comptroller.

The Charles Dickinson have left Arkansaw and moved to Jackson, Mississippi, where the GCW will, like a dutiful little paper, follow them.

Mrs. Ben Crawford and three children of Bald Knob, Ark., spent this week with their sister and aunt, Mrs. J. H. Biddy and family.

Like all other businesses and professions, the followers of woman's oldest profession seem to be enjoying thriving business.

C. T. Ramey, of Star Rt. 2 pitched in a dollar which is being duly board ed.

We are happy to add to our list the name of one of Grenada's business merchants, Sam Yolles.

Dink Thomas and wife had a bunch of preachers for a chicken-hen dinner Sunday. Included were Mr. and Mrs. Gypsy Smith, Rev. W. L. Robinson, Rev. G. R. Wiley and daughter, the singer, Mr. Montgomery and Mr. and Mrs. Moore. Dink thought that his
